

**REMARKS**

This application has been carefully studied and amended in view of the Office Action dated September 24, 2008. Reconsideration of that action is requested in view of the following.

In accordance with the suggestion of the Examiner the Specification has been reviewed and various errors have been corrected. In addition, the Abstract has been amended to delete "comprises".

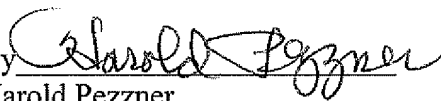

In view of the objection to the drawings a new Figure 2 has been added and page 8 has been amended to refer to that figure.

The claims have been carefully reviewed and amended in view of the rejection under 35 U.S.C. 112. These changes include specifically addressing the points raised by the Examiner including having proper claim dependency. In view of these amendments it is respectfully submitted that Claims 12-29 should comply with 35 U.S.C. 112.

Since Claims 12-29 have been indicated as containing allowable subject matter this application should now be passed to issue.
